

POWER BUGGY

The best choice
for concrete and
material transport.

The MQ Whiteman Power Buggy is the preferred choice of contractors due to its dependability and versatility.

WBH-16EF
16 cu.ft. capacity

Features common on all-wheel drive and standard drive models:

- **Quickly dump material** — a 80° dump angle assures the tub is emptied on your first approach.
- **Reduce concrete splatter** during transport with an integrated tub splash guard.
- **Smooth operation under all conditions** with a fully hydrostatic drive system.
- **Actuate dumping mechanism** using either a hand lever or a foot pedal.
- **Spend less time refueling** with a large 4.8 gallon fuel tank that enables you to work uninterrupted.
- **Lifting is made easier** by multiple attachment points and forklift pockets.
- **Enter confined areas and pass through 32" doorways** with removable outside tires.
- **Superflex foam filled tires** provide a soft air-like ride while extending tire life
- **Electric or recoil start** models available.

Operator's platform provides convenient access to all controls. Expanded metal floor plate provides secure footing and can be raised for storage or maneuvering in tight areas.

Power Buggy — 21 cubic foot with Propane System

Environmentally friendly — produces cleaner emissions and longer running time. Ideal for use indoors or in semi-enclosed buildings where air quality is a concern.

WBH-21EPF
21 cu.ft. capacity

- **Payload capacity** — 21 cubic foot (595 L)
- **Maximum load capacity** — 3200 Lbs. (1451 kg)
- **High density polyethylene tub** withstands the toughest use
- **18 Horsepower Vanguard engine**
- **Starting system** — recoil and electric start
- **Fuel type** — Propane EPA/CARB compliant
- **Closed fuel system** — easier to maintain and eliminates gummed up carburetors
- **Fuel capacity** — 7.5 gallon baffled tank
- **Travel speed:** — 7.25 mph (11.6 km)
- **Superflex foam filled tires** provide a soft air-like ride while extending tire life
- **Width** — 44 inches (111.7 cm)
- **Weight** — 1570 Lbs. (712.1 kg)

All-Wheel Drive Power Buggy

Easily switch to All-Wheel Drive and maintain high levels of production in the most challenging environments, whether it's sand, mud, or loose

gravel. Heavy duty main frame provides structural integrity with low center of gravity for increased stability and traction.

WBH-16EAWD
16 cu.ft. capacity
Features electric start Vanguard engine

Quick Service Access

Hinged access door for easy maintenance.

Hydraulic hoses are located within the frame for fast access and protection.

Toggle switch allows operator to easily switch from two-wheel drive to all-wheel drive.

Pressing button in AWD mode prevents wheel slippage and improves traction.

The All-Wheel Drive Buggy is equipped with a powerful steering drive motor for optimum performance. A single oversized tire provides superior traction.

U.S. Patent 6,293,627

TuffTruk Walk-Behind Power Buggy

The compact TuffTruk is ideal for interior demolition, environmental remediation, general construction, landscaping and utility work. A rechargeable, zero emission, high torque battery drive provides eight solid hour run time under full load.

TB11E

10.6 cu.ft. capacity
Rechargeable Battery Drive
Available with a
Polyethylene tub

TuffTruk Accessories for maximum versatility.

TuffTruk Extension Kit — TTE — 33.4 or 29.0 inch width, ideal for increased capacity when carrying light loads.

TuffTruk Flatbed — TFB33 and TFB29 — 33.4 or 29.0 inch width, ideal for transporting heavy bags of material.

TuffTruk 2-Inch Towing Hitch — TTBH — offers various height positions for different size trailers.

TuffTruk Dump Handle — TTH and TTHP (steel/polytub) — for added convenience when discharging tub uphill.

TuffTruk Snow Plow — TSP — perfect for displacing snow during poor weather conditions.

7 ft³ clip-on tub — TT7 — allows access through narrow 32-inch passageways.

Track Drive Power Buggy

The WTB-16 features an aggressive track pattern, enabling the buggy to travel effortlessly through soft soils and muddy site conditions. The WTB-16

is engineered with top quality components and built with the attention to detail that has made MQ Whiteman the leader in motorized buggies.

WTB-16
16 cu.ft. capacity

- **Optimal traction and durability** assured by a steel imbedded ladder track design
- **Rugged undercarriage guide wheels** are ductile cast iron
- **Low maintenance hydraulic design** eliminates wear parts such as belt-drives and drive couplers
- **High torque drive motors** propel the buggy through tough conditions and offer fail-safe braking
- **Versatile tub offers 16 ft.³ (2,500 LB.) capacity** and polyethylene construction for easy cleaning
- **Narrow width** allows the buggy to pass through doorways or confined areas
- **Travel efficiently around the site** with speeds of 5.1 MPH unloaded and 4.7 MPH loaded
- **Easy steering dual control levers** allow the operator to control the unit while minimizing fatigue
- **Powerful and reliable Honda GX690 engine** produces 22 horsepower
- **Long run times** are achieved with 5 gallon capacity fuel tank
- **Dimensions** — 90.5" long (platform raised) x 35.5" wide x 56.5" high
- **Weight** — 1896 pounds

Features — Track Drive Power Buggy

Dual control handles provide consistent tracking, easy steering, and minimized operator fatigue.

Front panel raises to provide complete service access.

100% hydraulic drive — No V belts, pulleys, clutches or mechanical gear reductions.

Folding foot plate allows operator to walk behind machine when used in confined areas. Perforated platform prevents material build up.

Aggressive tack pattern for use in soft soil to muddy site conditions.

Premier high torque Poclair hydraulic motors feature fail-safe brakes.
